397gm GREASE TUBES AVAILABLE FROM WICKHAM FLOWER

Multi-Purpose SD Polyurea

Applications:

- Ideal in rolling contact applications.
- -15° to 380°F (-26° to 193°C).
- For high-temperature, extreme-pressure conditions.
- Used for initial lubrication in U-joints and axle bearings at the factory.
- Excellent protection in corrosive and wet conditions.
- Compatible with most other types of grease.
- Thixotropic – thins to a gear oil when hard at work and then thickens when at rest.
- For all-purpose applications, especially those requiring a severe-duty grease.
- Factory-fill grease for most AG equipment.
- Our best multi-purpose grease.

Service ratings:

- Meets equipment manufacturers' extended-service intervals.
- NLGI (National Lubricating Grease Institute) grade 2.
- JDM J13E1, J13E4, J13E5, and J25C.
- GC-LB.

Multi-Purpose Lithium

Applications:

- Ideal for all-season, general-purpose lubrication applications.
- -30° to 290°F (-34° to 143°C).
- For light- to medium-duty wheel bearings and U-joints.
- Excellent performance in medium- to light-duty applications.
- Multi-purpose grease.

Service ratings:

- NLGI grade 2.
- JDM J13C3 and J13C3A.

PROTECT YOUR EQUIPMENT WITH GENUINE JOHN DEERE GREASE.
IN STOCK AT ALL AG BRANCHES IN 397GM TUBES.
